

# Entertainers Data Analysis

# Objectives

- Find youngest Male and Female Entertainer at the time of Breakthrough
- Which year has the most breakthroughs
- Gender distribution of alive Entertainers
- Entertainers with longest and shortest active years

# The Process

- Data Collection
- Data Cleaning
- Data Analysis
- Insights

# Data Collection

The Data has been collected in the form of **three xlsx** files

The files contains the information about famous  
**Entertainers/Artists**

# Data Cleaning

Combined all three xlsx files into a single table using **VLOOKUP**

Column '**Year of first Oscar/Grammy/Emmy**' has some **blank** spaces. Relaced them with **NA**.

Column '**Year of Death**' has some blank spaces. Relaced them with a placeholder '**Still Alive**'.

Created a new column '**Age at Breakthrough**' which is 'Year of Breakthrough' minus 'Birth Year'.

Created another column '**Active Years**' which is 'Year of Last Major Work' minus 'Year of Breakthrough'

# Data Analysis
